

VKGB2-P7/xAF GB2 Series Video-Intercom Kits W/Flush Entry Panel

Each VKGB2-P7/_AF Kit Consists Of:

PENTHA7 GB2 Surface Mount 7.0" Indoor Video-Intercom Monitors (qty. of 1 to 10 depending upon kit selected)

D2L-GB2 2-way video bus splitters (qty. of 0 to 5 depending upon kit selected)

(1) Aluminum NEXA Door Station (supplied with FLUSH back back box), with 1 to 10 push-buttons. 1-Button model shown

(1) Aluminum NEXA Door Station (supplied with FLUSH back back box), with 1 to 10 push-buttons. 10-Button model shown

(1) **EL632/GB2B** Camera and Speaker/Mic. Module (installed into the NEXA panel)

(1) Flush plastic back box for the NEXA panel (model# **NCEV-90CS** shown)

(1) **FA-GB2/B** System Power Supply/Amplifier

(1) **EL610D** Pushbutton Module (in kits with 3-10 pushbuttons)

DOOR STRIKE POWER NOTES

The **EL632/GB2B** Camera/Speaker/Microphone module provides 12VDC power for a 12VDC door strike. If another voltage door strike is used, the installer must provide a separate low-voltage door strike power supply (for each entrance panel).

VKGB2-7/XAF GB2 SERIES VIDEO-INTERCOM KITS

The Alpha Communications® VKGB2-P7/_AF **GB2** series video-intercom kits feature our least expensive touchscreen multi-unit video-intercom system and configurations, for buildings with 1 through 10 apartments, at a price that can't be beat! The 'x' in the model number indicates the kit size (1-10 apartments). Each kit contains 1- **PENTHA7 GB2** surface mount 7.0" screen color video-intercom monitor station (for each apartment) with corresponding number of **D2L-GB2** video splitters required, 1- **FA-GB2/B** system power supply and 1- NEXA series Aluminum finish flush entry video door station/panel (with 1-10 push-buttons) and the required **EL632/GB2B** color camera/sound module. Kits with 3 to 10 pushbuttons on the door panel also include the required **EL610D** pushbutton module.

Just add an electric door strike (and associated power supply) and 2-conductor wire, to complete your building security system. We know of no other system that can offer all of these features at this cost.

Other voltage door strikes and mag locks can be used with this system, with the addition of the **PK407A** auxiliary relay unit and additional door strike power supply. Please contact us for more information.

FEATURES

- Simple 2-conductor wiring
- **Panels come assembled and pre-programmed**
- **All Monitors come pre-programmed**
- Built-in electronic call signal to each indoor station (adjustable)
- Built-In Visual Panel Function Indicator Lights
